

PREPARE FOR YOUR DOG SHOOT

Keep this quick list ready on your phone to help you remember what to bring along to your shoot

by Baron Bratby

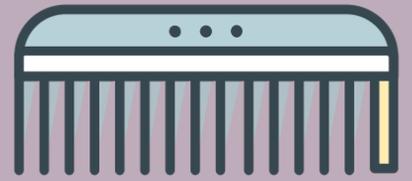

1 WATER BOWL

While we have water and indeed bowls it is comforting to your pet if there are some familiar things around they are used to.

2 GROOMING KIT

You will want to have your pet looking there very best, so remember to pack your usual grooming tools for that odd tidy up before and during your session

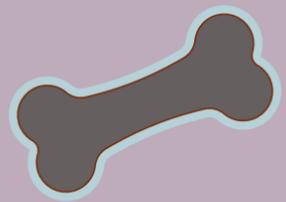

3 BEST COLLAR AND LEAD

If you need a lead to keep control, or want the collar to be part of the session make sure to bring their 'Sunday Best'. You will be looking at these lovely images for years to come and small details can make all the difference.

4 TREATS

For some dogs life revolves around those treats and you know better than anyone what it is your dog loves. But keep them tucked away until asked. Your photographer will let you know when is the right time to bring them out.

5 CLOTHES

If you are one of those who loves to sometimes dress your dog up (and your dog is complaint of course!)it can be fun to bring along that hat or jacked. Just make sure it fits and your dog does not protest or get stressed over this.

6 MEDICATION

A portrait shoot can take both dog and owner out of their routine. So if either normally take medication around the time of the session make sure to pack it.

7 EXERCISE

For older dogs it may be a case of keeping them rested. For others leave time to have a good walk before your session so they are not over excited.

8 DON'T FORGET YOU!

Finally make sure you are drssed to take part in at least one or two photos. Even if you are determined not to have your face in it the owners feet and legs in the picture may add that extra touch
